===== 2026-10-05 =====

Source: <https://techcrunch.com/category/artificial-intelligence/>

1. Google froze its open source bug bounty program due to a 'significant rise' in AI submissions

Google has paused an open-source bug bounty program after being flooded with AI-generated vulnerability submissions.

<https://techcrunch.com/2026/10/04/google-froze-its-open-source-bug-bounty-program-due-to-a-significant-rise-in-ai-submissions/>

2. Can 'super intelligence' and a non-binding safety pact solve AI's image problem?

An analysis of whether superintelligence branding and a voluntary safety pact can improve the AI industry's public reputation.

<https://techcrunch.com/2026/10/04/can-super-intelligence-and-a-non-binding-safety-pact-solve-ais-image-problem/>

3. Trump unveils his new Super Intelligence Force

The Trump administration has announced a new government initiative branded the 'Super Intelligence Force'.

<https://techcrunch.com/2026/10/04/trump-unveils-his-new-super-intelligence-force/>

4. Amazon responds to data center backlash, says it no longer uses NDAs

Facing local pushback over data centers, Amazon says it has stopped using non-disclosure agreements in those deals.

<https://techcrunch.com/2026/10/03/amazon-responds-to-data-center-backlash-says-it-no-longer-uses-ndas/>

5. OpenAI safety employee resigns, claiming the company's 'culture is broken'

An OpenAI safety staffer has quit publicly, criticizing the company's internal culture.

<https://techcrunch.com/2026/10/03/openai-safety-employee-resigns-claiming-the-companys-culture-is-broken/>

6. All the AI agents that can live in your text messages

A roundup of AI agents that operate directly inside text-message threads.

<https://techcrunch.com/2026/10/03/all-the-ai-agents-that-can-live-in-your-text-messages/>

7. Meta wants your next gadget to be Muse-infused

Meta is inviting hardware makers to build their own devices around its Muse AI.

<https://techcrunch.com/2026/10/02/meta-wants-you-to-build-your-own-muse-gadget/>

8. Sean Parker is rebuilding Stability AI around music

Stability AI is being refocused on AI music under Sean Parker.

<https://techcrunch.com/2026/10/02/sean-parker-is-rebuilding-stability-ai-around-music/>

9. Apple says it's tightening macOS 'Full Disk Access' controls due to new risks from AI agents

Apple is restricting macOS Full Disk Access permissions because AI agents create new data-access risks.

<https://techcrunch.com/2026/10/02/apple-says-its-tightening-macos-full-disk-access-controls-due-to-new-risks-from-ai-agents/>

10. TechCrunch Disrupt 2026: Blackstone's Jas Khaira on building the next generation of AI giants

A Disrupt 2026 session where Blackstone's Jas Khaira discusses how the next big AI companies will be built.

<https://techcrunch.com/2026/10/02/techcrunch-disrupt-2026-blackstones-jas-khaira-on-building-the-next-generation-of-ai-giants/>

11. Circuit Breaker Labs hopes to make AI safer for your kids (and you)

Startup Circuit Breaker Labs is building tools aimed at making AI safer for children and adults.

<https://techcrunch.com/2026/10/02/circuit-breaker-labs-hopes-to-make-ai-safer-for-your-kids-and-you/>

12. Pope Leo XIV is not a fan of AI-generated art

Pope Leo XIV has spoken critically about AI-generated art.

<https://techcrunch.com/2026/10/02/pope-leo-xiv-is-not-a-fan-of-ai-generated-art/>

13. TechCrunch Disrupt 2026: Clay's Kareem Amin on the rise of the GTM engineer

Clay's Kareem Amin discusses the emerging 'go-to-market engineer' role at Disrupt 2026.

<https://techcrunch.com/2026/10/02/techcrunch-disrupt-2026-clays-kareem-amin-on-the-rise-of-the-gtm-engineer/>

14. Musk's AI chatbot Grok reportedly encouraged Trump to capture Venezuela's president

A report says xAI's Grok chatbot urged Trump toward capturing Venezuela's president, raising questions about AI influence on policy.

<https://techcrunch.com/2026/10/01/musks-ai-chatbot-grok-reportedly-encouraged-trump-to-capture-venezuelas-president/>

15. ChatGPT can now virtually try on clothes for you

ChatGPT has added a virtual clothing try-on feature for shoppers.

<https://techcrunch.com/2026/10/01/chatgpt-can-now-virtually-try-on-clothes-for-you/>

Top themes today: AI safety and governance (OpenAI resignation, safety pact, Super Intelligence Force), AI agents and security risks (Apple Full Disk Access, bug-bounty flood), consumer AI features and gadgets (Meta Muse, ChatGPT try-on), data center backlash

--- India: Telecom ---

Source: Google News India (telecom search)

1. With its network built, Jio pivots to profitability

Having completed its network buildout, Reliance Jio is shifting focus to profits.

<https://www.communicationstoday.co.in/with-its-network-built-jio-pivots-to-profitability/>

2. Telcos resist TRAI's quality of service overhaul

Telecom operators are pushing back against TRAI's proposed overhaul of service-quality rules.

<https://www.communicationstoday.co.in/telcos-resist-trais-quality-of-service-overhaul/>

3. Jio Platforms eyes bigger enterprise, digital services play as capex cycle peaks

With heavy network spending peaking, Jio Platforms is targeting growth in enterprise and digital services.

<https://www.moneycontrol.com/news/business/companies/jio-platforms-eyes-bigger-enterprise-digital-services-play-as-capex-cycle-peaks-14044388.html>
